

# PAINTS

## KRYLON SPRAY PRIMERS

COLOR	PART #
ruddy brown	1357 KRY

## KRYLON HIGH HEAT SPRAY PAINT

Up to 600° F continuous, 1200° F intermittent

COLOR	PART #
aluminum	1402 KRY
black	1614 KRY

## CRC ENAMEL SPRAY PAINT

15 oz. cans

COLOR	PART #
black, flat	18109 CRC
clear, urethane, 11 oz.	18411 CRC
red, urethane 11 oz.	18410 CRC
white, OSHA gloss	18106 CRC

**RED GLPT INSULATING VARNISH**—Alkyd based compound, resistant to environmental extremes such as oils, water, most acids and alkalis. Retains high dielectric strength even if wet. Great for highly humid climates. Works up to 250 degrees F. Use on coils transformers, motor windings, and protection against oxidation and atmospheric attacks. 2 fl. oz. **10-9902 GC**

**SILVER PRINT (CONDUCTIVE PAINT)**—For PC repair or add-on circuit traces. Pure silver in lacquer based carrier may be brushed on to either conduct or shield. Conducts better than copper. **22-0023 GC (1/2 troy oz.)**

**NICKEL PRINT (CONDUCTIVE PAINT)**—Same as above except powdered nickel in a lacquer based coating. 2 fl. oz. **22-207 GC**

# SPRAY CHEMICALS

DESCRIPTION	PART #
CLEAR URETHANE SPRAY COAT — Electrical-Electronic insulator, flexible, durable, non-conductive polyurethane film. Works over a range of -90° to +250° F.	1302 KRY
RED URETHANE SPRAY COAT — Electrical-Electronic insulator, flexible, durable, non-conductive polyurethane film. Works over a range of -90° to +250° F.	2044 CRC
SILICONE RESIN LACQUER SPRAY — Provides tough protective coat on printed circuits. Also known as "Print Kote".	22-203 GC
SILICON LUBE SPRAY — Lubricates rubber mounting, protects weatherstrip insulation, reduces friction, repels water.	2094 CRC
PENETRATING OIL, 2-26 — Displaces moisture, lubricates & protects against rust. Plastics safe. 11 oz.	2005 CRC
GLASS CLEANER — Cuts thru the toughest road & factory dirt. Use on glass & chrome. No film, non-staining.	68A CRC
EMI-RFI SHIELD SPRA — Coating reduces or eliminates interference & spurious emissions. Sticks to most plastics, glass, etc.	10-4807 GC
ZINC-IT — Cold galvanize spray actively fights rust with 95% pure zinc.	2081 CRC
